

DuPont™ Realm™ Q

herbicide

DuPont™ Realm™ Q herbicide will deliver more control under more conditions

That's because Realm™ Q:

- Works in more diverse weather, across more hybrids
- Has a better window of application to start early (row & go timing) and still control later-emerging weeds
- Contains multiple modes of action to control waterhemp, lambsquarters and other glyphosate-/ALS-tolerant weeds
- Offers ease of handling in a convenient dry formulation

DuPont™ Prequel® 1.67 oz/A followed by Realm™ Q 4.0 oz/A + COC + AMS.

Testimonial — testing the concept of Realm™ Q

"Nice to be able to get out and spray early and spread out the workload. Efficacy looks great at this point in time ...used it mainly to get some more residual grass control on some tough farms and so far so good."

— Grower near Spencer, Iowa

Yield Advantage (DuPont™ Q product formulations + glyphosate):

DuPont data collected from 22 university cooperators and third-party researchers has shown on average a 14 bu/A advantage by tank mixing an additional mode of action to glyphosate that also offers residual control, such as Realm™ Q.

Source: DuPont field trial; Trial conducted with university cooperators across 20 states.

2-Pass Program

DuPont™ Prequel® or Basis®, or a set-up rate of Breakfree® or Cinch® brand herbicides

Followed by

DuPont™ Realm™ Q 4.0 oz/A
+/- Abundit™ Extra herbicide (glyphosate*)
+/- atrazine

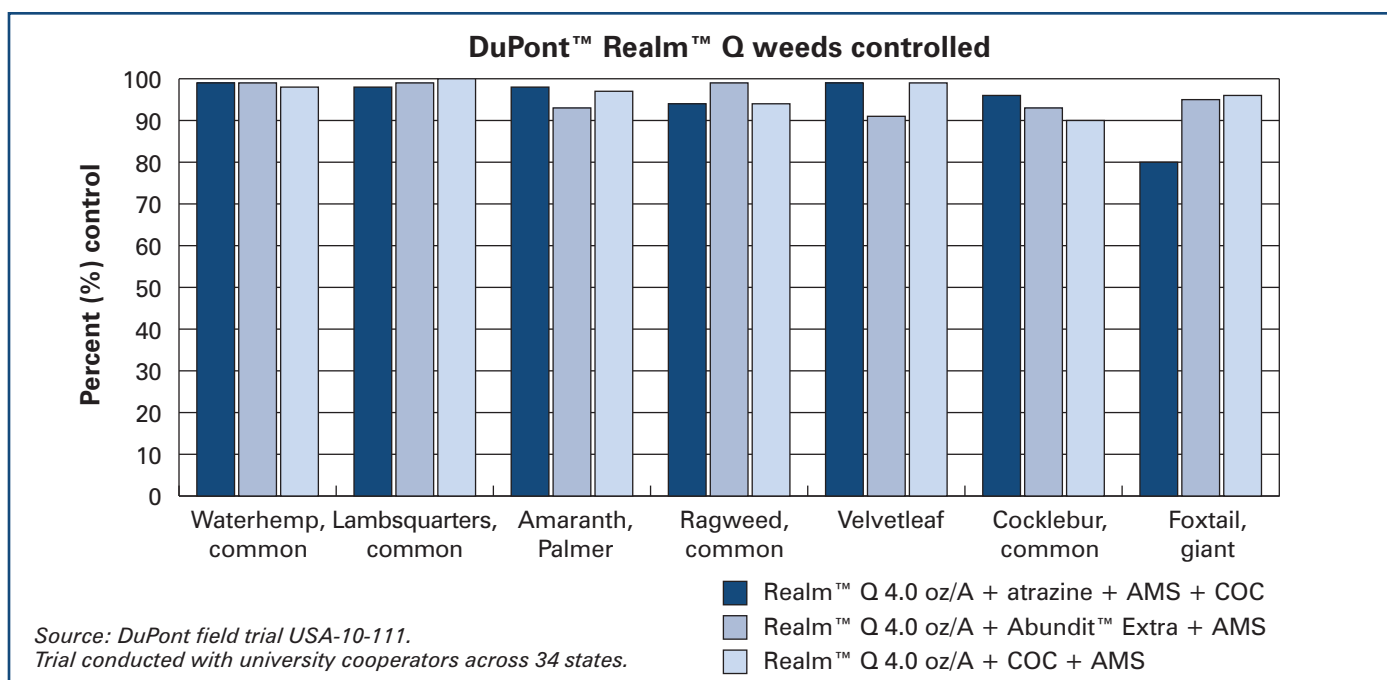

* Refer to the glyphosate label for specific AMS and surfactant recommendations

Application guide

- DuPont™ Realm™ Q is best used as part of a sequential herbicide treatment, following a before-planting application of DuPont™ Prequel®, Basis® or a Breakfree® or Cinch® brand herbicides
- While Realm™ Q has a wide application window, research has shown best results are obtained when

applications are made early postemergence (row & go) when corn and weeds are small

- Make postemergence applications of Realm™ Q to field corn that is up to 20 inches tall, or up to and including 6-leaf collars.

Convenient dry formulation

Realm™ Q is formulated using proprietary blend technology from DuPont. This will provide you with:

- Easy to handle dry flowable formulation
- Faster pourability and bottle cleanout
- The only dry mesotrione formulation on the market

For more information

To learn more about Realm™ Q herbicide, contact your local DuPont retailer or DuPont representative. And visit us on the Web at realmq.dupont.com.

Atrazine, Breakfree® ATZ, Breakfree® ATZ Lite, Cinch® ATZ, Cinch® ATZ Lite and Prequel® are restricted-use pesticides. Abundit™ is not available in all states. See your local DuPont retailer or representative for availability in your state. DuPont™ Realm™ Q may not be registered for sale or use in all states. See your local DuPont retailer or representative for details and availability in your state.
