STOLLER® brand Products Crop Health Therapy

Data Sheet

Stoller's Crop Health Therapy significantly enhances plant performance at every stage of growth.

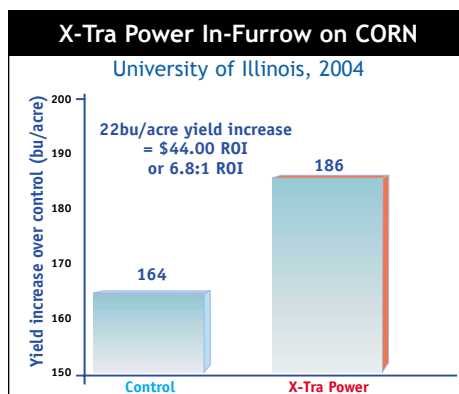

X-Tra Power™ on Corn & Soybeans

- X-TRA POWER is a unique formulation of Mg, Mn, Cu, Zn with amino-acid growth-supporting co-factors
- X-TRA POWER micronutrients are chelated with a patented agent to ensure each nutrient's bioavailability in the soil
- X-TRA POWER helps the plant maintain a healthy hormone balance because each of these nutrients is important for the functioning of the enzymes responsible for auxin production which is required for controlled vegetative growth and increased reproductive growth
- X-TRA POWER will support the micronutrient needs in starter fertilizer, in-furrow or foliar treatments
- X-TRA POWER will enhance root growth, seedling vigor and reproductive growth setting the stage for higher yield potential
