

For selective weed control of certain broadleaf annual and perennial weeds in small grains, corn, pastures, turf, and in non-crop areas.

Weeds Controlled

Alders	Artichock
Bindweed	Bull Thistle
Burdock	Carpet weed
Canada Thistle	Catnip
Chickweed	Cocklebur
Coffeeweed	Dock
Lambsquarter	Ironweed
Mallow	Mustard
Pigweed	Ragweed

(Read label for additional broadleaf weeds controlled)

Recommended Application Rates

Small Grains: (wheat, barley, oats, rye, millet)

Spray when weeds are small after grain begins to tiller but before boot stage. (Usually 4 to 8 inches tall) Wheat, barley, rye - 2/3 to 1-1/2 pints/acre Oats 1/2 to 1 pint per acre Millet 2/3 to 1 1/3 pints per acre

Corn: (Field and Sweet)

Postemergent: apply when weeds are small and corn is 5 to 18 inches tall. When corn is over 8 inches tall use drop nozzles.

- Do not apply from tassel to dough stage. Corn up to 8 inches tall - 1/2 to 1 pint/acre. Corn 8 inches to tassel - 1 pt/acre

Sorghum: (Milo)

Apply to sorghum when crop is 4 to 12 inches tall with secondary roots well established.

- Use drop nozzles over 10 inches tall Sorghum 6 to 8 inches tall 1/2

to 1 pint/acre Sorghum 8 to 15 inches tall 1 pint/acre

Pasture and Rangeland: Use 1 to 4 pints of product in sufficient water to give good coverage. Use only on established stand of perennial grasses.

- Do not use from early boot to milk stage where grass seed production is desired.
- Do not graze dairy cattle within 7 days of application.
- Do not apply product within 30 days of cutting grass for hay.
- Remove meat animals from treated area 3 days prior to slaughter.

Aquatic weeds: In lakes, ponds, reservoirs, canals, drainage ditches, and marshes. Use 2-1/2 to 4-1/2 pints of product in 50 to 100 gallons of water per acre.

- Do not apply more than 1/3 to 1/2 of a lake or pond in any one month.

Application

Ground Application - Apply with flat fan or low reduce pressure nozzles with coarse spray droplets at low pressures - 30 to 50 psi.

Aerial Application - Apply only when there is no danger of drift. Apply in 1 to 5 gallons of water.

Tank Mix Options: Read label for options

Always read and follow label directions.
