

## Range and Pasture Herbicide

Range Star® offers excellent post emergence control of a wide spectrum of annual and perennial broadleaf weeds and brush in grass forages and selected row crops.

### Labeled Use Sites

- Permanent Pastures
- Rangeland
- Wheat
- Sorghum
- Sugarcane
- Fallow

### Key Benefits

- Range Star® offers a wide window for application based on the height and growth of targeted weeds
- Range Star® is readily absorbed through both shoot and root uptake
- Range Star® quickly translocates throughout the plant and accumulates in areas of growth where it interferes with the plants growth hormones resulting in the death of many broadleaf weeds
- Easy tank mix compatibility with QuinStar™ GT for enhanced bindweed control
- Range Star® can be applied by air or ground equipment
- Either water or a liquid fertilizer can be used as the spray carrier
- Easy tank mix with SU's to extend the residual control of broadleaf weeds
- Rainfast within 4 hours of post emergence application
- No grazing restrictions for non-lactating animals
- Only a 7 day grazing restriction for lactating dairy animals
- PHI for hay and silage is only 37 days

### Active Ingredients

Dimethylamine salt of dicamba	12.4%
Dimethylamine salt of 2,4-D	35.7%
Other Ingredients	51.9%
<b>Total</b>	<b>100 %</b>

Contains 1.0 pounds of dicamba and 2.87 pounds of 2,4-d per gallon

**Always read and follow label directions.**

EPA Reg. No. 42750 – 55
