

MANA
Crop Protection

PGRs & HARVEST AIDS

MAKES SENSE.

SET UP YOUR COTTON FOR MORE PROFIT

Choose MANA money-making cotton harvest aids.

SET UP MORE PROFIT.

With these MANA money-making cotton harvest aids.

Contains the same active as **Prep®**

Boosts overall recoverable yield by opening nearly 98% of mature unopened bolls in 7 to 14 days after treatment. Use to precondition cotton for faster, more consistent defoliation. Also, promotes cleaner leaf drop and reduced leaf sticking when used in combination with Klean-Pik.

Contains the same active as **Ginstar®**

Defoliates and prevents regrowth to deliver clean, consistent foliage drop with no leaf stick. Redi-Pik® PGR and Defoliant is especially suited to the temperatures and weather patterns of West and Southwest cotton markets.

Contains the same active as **Drop®**

Contains the most popular cotton defoliant active ingredient. Offers excellent tank mixing opportunities, especially with ethephon-based boll openers like Setup™, possibly resulting in faster leaf drop and quicker boll opening.

Contains the same active as **Pix®**

Mepiquat chloride is the most popular cotton plant growth regulator. It can be used to consistently regulate cotton plant growth and to turn yield potential into higher quality cotton.

Contains the active ingredient **Paraquat**

Parazone defoliant and desiccant is a broad-spectrum, non-selective burndown herbicide for multiple uses on over 100 crops. Proven, preferred paraquat formulation.

QUALITY PRODUCTS. COMPETITIVE PRICES.

MANA makes sense for growers, for channel partners, for agriculture. MANA offers the most comprehensive and diversified portfolio in the crop protection industry with over 50 formulations of insecticides, fungicides, herbicides, PGRs and harvest aids from more than 40 active ingredients. These proven products are efficiently manufactured to the highest standards and value priced to optimize the farm's profitability potential. As the North American arm of the world's seventh largest agrochemical company, MANA provides best-in-class formulations, regulatory capabilities, field research, and a science-based approach to defend and maintain vital active ingredients that other companies have abandoned. Our area business management team throughout the U.S. supports the distributors, retailers, crop consultants and agronomists who are part of the supply chain that farmers and farm managers rely on for localized expertise.
