

# Triumph™ 22K

## Picloram Herbicide

Triumph™ 22K is designed and labeled specifically for use west of the Mississippi river to control susceptible broadleaf weeds and woody plants.

### Labeled Use Sites

- Rangeland
- Permanent pastures
- Spring wheat, barley, oats
- Fallow cropland
- Conservation Reserve Acres
- Other non cropland

### Key Benefits

- Provides both foliar and soil activity to control many troublesome weeds
- Compatible with most non-pressurized fertilizers
- Can be applied by air with either water or a water emulsion carrier
- Can be applied using ground equipment including sprayers, rollers, and wicks
- Mixes easily with high quality surfactants and most deposition or drift control adjuvants.

### Active Ingredients:

Picloram	24.4 %
Other Inert Ingredients	<u>75.6%</u>
<b>Total</b>	<b>100 %</b>

**Contains 2 pounds of picloram per gallon**

#### RESTRICTED USE PESTICIDE

May injure (phytotoxic) susceptible, non-target plants. For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification. Commercial certified applicators must also ensure that all persons involved in these activities are informed of the precautionary statements.

Triumph™ 22K is not registered for use in every state. Please check with Albaugh Inc. or your local State Agency for product registration status. **EPA Reg. No. 42750-79**

<b>Broadleaf Weeds Controlled by Triumph 22K</b>
