

SOFTCEDE® II

Advanced Water Conditioning Agent

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of ammonium salt, tricarboxylic, phosphoric acids and formulation aids 100%

All ingredients are approved for use under CFR 40, 180.1001

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS

Before using this product, read the entire label, including the conditions of sale. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes and skin, may cause irritation. Avoid breathing spray mist.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers of this chemical should wear chemical safety goggles, chemical-resistant gloves, long-sleeved shirt, pants, socks and shoes. Consult the MSDS for further information.

STATEMENT OF PRACTICAL TREATMENT

- If Swallowed:** Do not induce vomiting unless directed to do so by medical personnel. If individual is fully conscious, give a large amount of water to drink. Never give fluids or force vomiting if the individual is unconscious, is having convulsions or has no gag reflex. If large quantities are swallowed, seek immediate medical attention.
- If In Eyes:** Check for and remove contact lenses. Immediately flush eyes with water for at least 15 minutes. Seek immediate medical attention if irritation persists.
- If On Skin:** Remove contaminated clothing and wash affected area with soap and water. Seek medical attention if irritation persists.
- If Inhaled:** Move individual to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Seek immediate medical attention.

GENERAL INFORMATION

Softcede II is an advanced water conditioning agent that can be added to the spray solution at any time to effectively enhance the performance potential of certain weak acid herbicides such as; glyphosate, dicamba and phenoxies. Softcede II sequesters antagonistic hard water ions that reduce herbicide uptake while providing ammonium ions for improved translocation.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using Softcede II, the applicator or crops advisor must have experience with the pesticide combination, including Softcede II, or must have conducted a phytotoxicity test.

USE RATES

Softcede II use rates are determined by the water hardness levels. Levels can be expressed in either parts per million (ppm) or grains.

Water Hardness Level		Softcede II
ppm	Grains	Per 100 Gallons
120–250	7–15	1 qt.
251–500	15–30	2 qt.
500+	30+	3 qt.

MIXING

Softcede II can be added to the spray solution at anytime during the mixing process. In the absence of specific mixing instructions, fill the spray tank $\frac{1}{2}$ – $\frac{3}{4}$ full of desired water volume. While the water is agitating, add tank mix ingredients in the following order:

- 1) If foaming is anticipated use an antifoaming agent or defoamer.
- 2) Water-soluble packets, dry flowables and dispersible granule pesticides.
- 3) Flowable pesticides.
- 4) Water-soluble pesticides.
- 5) Emulsifiable concentrates.
- 6) Continue agitation and finish filling spray tank to desired level.
- 7) As a last step, add Softcede II to the spray solution and continue agitation.

STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Keep container sealed when not in use. Store in original container only. Do not reuse empty container. Rinse empty container thoroughly. Dispose of rinsate and container in accordance with local, state and federal regulations.

CONDITIONS OF SALE

Read the information contained herein before buying or using this product. If the stated terms are unacceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Supercede LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Supercede LLC's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated hereon and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the Company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product shall be the purchase price paid by the user or buyer for the product involved.
