

Credit[®] Xtreme

NON-SELECTIVE HERBICIDE

Get Powerful Weed Control from Credit[®] Xtreme.

Credit[®] Xtreme from Nufarm delivers powerful performance. With both potassium and IPA salts, Credit Xtreme is the only glyphosate product to offer Dual Salt Technology™. The rapid uptake leads to quicker activity and rainfastness, so you can apply it with confidence. Tough weeds like lambsquarters and velvetleaf are no match for Credit Xtreme and it delivers excellent crop safety to Roundup Ready[®] crops. Credit Xtreme has an acid equivalent content of 4.5 lbs glyphosate per gallon and treats 50% more acres than many products which only have 3.0 lbs a.e. per gallon.

KEY PERFORMANCE BENEFITS

- Contains proprietary Dual-Salt Technology; delivers excellent crop safety
- Takes on the toughest weeds with quick burndown and complete control
- Excellent tank-mix compatibility, even in hard water environments
- Fast translocation activity and rainfastness
- Treat more acres per tote than many alternative glyphosate products

EPA REG. NO.	71368-81
ACTIVE INGR.	glyphosate: isopropylamine salt (30.94%), potassium salt (22.99%) (equivalent to 540 g/l, or 4.5 lbs/gal of the acid glyphosate)
FORMULATION	liquid
CHEM. FAMILY	glycines
GROUP NO.	9
MODE OF ACT.	amino acid synthesis inhibitor
REI	4 hours
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	2 x 2.5 gal, 30 gal, 250 gal tote

Credit® Xtreme

NON-SELECTIVE HERBICIDE

KEY USES

Burndown applications in reduced tillage and fallow systems
 Conservation Reserve Program (CRP) land
 Cool-season turf growth regulation
 Dormant rangeland
 Farmsteads including farm ditches
 Grasses grown for seed
 Habitat management
 Non-crop uses including industrial, recreational and public areas
 Ornamentals including tree nurseries and Christmas trees
 Roundup Ready® cropping systems including corn, cotton, soybeans, and sugar beets
 Turfgrass

KEY WEEDS CONTROLLED

(See product label for complete list)

Many tough weeds like lambsquarters and velvetleaf

APPLICATION RECOMMENDATIONS

RAINFASTNESS

Radiograph photography taken 48 hours after treatment shows Credit® Xtreme moves into the plant quickly. Barley leaves were treated with active ingredient and the uptake was measured. The rate of uptake was similar for Credit Xtreme and the Roundup® brand.

Credit® Xtreme

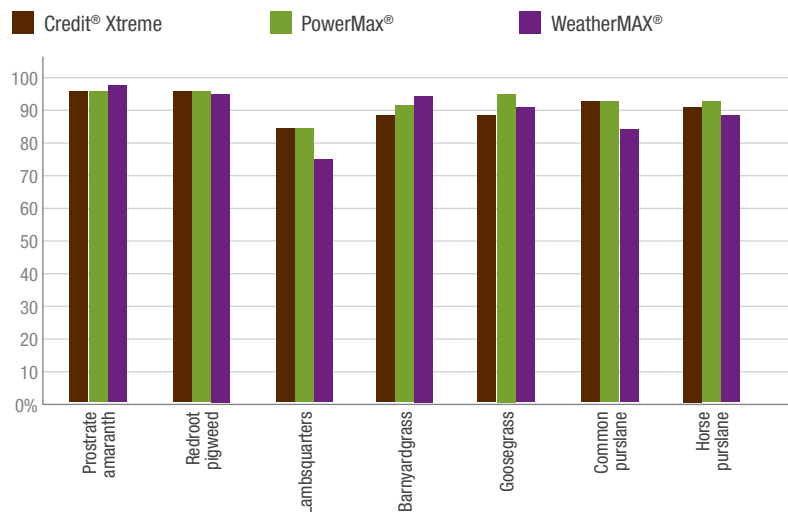

Roundup WeatherMAX®

Red color denotes glyphosate movement in plants.
 Source: Independent research

CREDIT XTREME RAINFASTNESS VS. ROUNDUP PRODUCTS

Rain applied 60 minutes after treatment and control measured 21 days later.
 Source: Independent research. Applied at the recommended labeled rates (a.e.)

See label for complete application rates and recommendations.
