

GlyStar® Plus

GlyStar® Plus Glyphosate Herbicide is a post emergent, systemic herbicide with no soil residual activity. It is generally non-selective and gives broad spectrum control of many annual and perennial weeds, woody brush and trees. GlyStar provides control of more than 100 grasses and broadleaf weeds. It is formulated as a water-soluble liquid. GlyStar Plus is registered for use on glyphosate tolerant crops as indicated on the label.
