

PRAMITOL[®]

5PS PELLETED HERBICIDE

Pramitol[®] 5PS is a pelleted herbicide that can be applied to areas where you desire bare ground with no weed or grass coverage.

Pramitol 5PS is a non selective herbicide and is often used around right-of-ways, fence lines, industrial equipment areas and more. For best results apply before rainfall or water the area after application.

Specifications

- Weed Control
- Creates barren soil
- Active Ingredients: Prometon - 5.00 %, Simazine - 0.76 %, Sodium chlorate: 39.80 %, Sodium metaborate - 40.00 %
- Sodium metaborate 40.00 % is equivalent to 4.87 % elemental boron
- Non-selective herbicide
- Pre and post emergence control
- Dry soils can prohibit movement of Pramitol[®] to the root system and produce poor weed control
- Pramitol[®] 5PS will leave behind sterile soil for up to one year and prevent new weed growth
