

AUTHORITY[®] MAXX HERBICIDE

**Preemergence Treatment Offering the Longest Residual Control
and the Lowest Carryover Risk for the Money**

Maxx is a standout in the Authority family of soybean herbicides because it offers an unbeatable combination of long residual activity, flexibility in follow-up postemergence applications and crop safety.

Product Characteristics

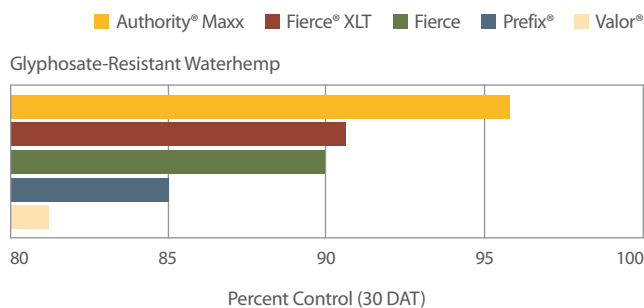

- Preemergence herbicide controls small-seeded broadleaf weeds in soybeans, including waterhemp and Palmer pigweed
- Best value in the Authority[®] herbicide line in terms of length of residual control
- Apply preplant incorporated, premerge or as a fall application
- Provides more flexibility in follow-up postemergence applications due to residual activity
- Reduces selection pressure for glyphosate- and ALS-tolerant weed biotypes
- Delivers excellent crop safety

Performance Data

In a Southern Illinois University research trial, Authority Maxx provided greater control of glyphosate-resistant waterhemp than Valor[®] XLT, Prefix[®], Fierce[®] or Fierce XLT.
